Coffee Solutions for Business

More than a cup of coffee

Choosing Lavazza means knowing you can count on the experience of people who have been working with coffee for four generations. We supply products of excellence, exclusive services and support for clients who look for a unique coffee experience.

Our founder created one of the first Italian blends in 1895. Today we skilfully create and roast our blends perfectly combining body, aroma and taste.

We have developed our own coffee quality parameters to ensure a consistent taste profile throughout the year. Pure quality!

About Us

Vero Coffee Company is a leading provider of top-quality coffee, coffee machines, installation and technical services across a huge number of brands. We provide our customers with both on-site training and in-house training in our purpose-designed training centre or at your premises. As an exclusive agent in Ireland for Caffè Molinari and an appointed Irish agent for Lavazza - Italy's Favourite Coffee, we have a large range of espresso beans, roast and ground coffee and all kinds of coffee capsules for commercial machines. No matter what your taste and flavour preferences are, we have a product to suit your needs.

Vero Coffee Company is here to guide you onto your perfect coffee journey. Our dynamic team provides complete coffee solutions to all businesses in Ireland. From coffee and espresso equipment to barista supplies and experienced engineers, our delivery and technical service teams will bring fresh inspiration and international trends directly to the Irish market. Since "Vero" in Italian means "true" and because long-term solutions are a key factor in any business' growth, we believe in building positive relationships with both our customers and suppliers. At Vero Coffee Company we are dedicated to provide our customers with a wide variety of quality products at competitive prices and high standards.

Sustainability Matters

The Lavazza Foundation has been working with Save the Children, the humanitarian aid organization, to improve the lives of young boys and girls through better education, health care, and economic opportunities. Lavazza plays an active role in the Coffee & Climate (C&C) initiative as a founding member since 2010.

LAVAZZA

TORINO, ITALIA, 1895

Promoting Sustainable Coffee Practices

iTierra! is a Lavazza-brand project founded in 2002 with the aim of supporting the social and economic development of local communities and promoting good agricultural practices on coffee plantations. Initially active in small farming communities in Colombia, Honduras and Peru, over the years iTierra! has expanded to an additional 17 countries, individually involving the farmers and their families.

Lavazza La Reserva de ¡Tierra! Cuba Beans

Robust flavour with a velvety finish.

Lavazza La Reserva De ¡Tierra! Cuba Coffee Beans is an organic blend crafted to transport your taste buds to the vibrant landscapes of Cuba.

With a medium roast profile, Lavazza La Reserva De ¡Tierra! Cuba Coffee Beans strike the perfect balance between boldness and smoothness, ensuring a satisfyingly robust flavour with a velvety finish.

La Reserva de ¡Tierra! Cuba is a one-of-a-kind contemporary story of a sustainable coffee blend that cares for farmers, consumers, and the local environment. This blend has been selected, blended and crafted to offer a flavour journey from around the world.

Whether brewed as an espresso shot or savoured as a creamy latte, these beans promise to elevate your coffee ritual to new heights.

Medium
roast

Lavazza La Reserva de ¡Tierra! Selection

Fruity with notes of milk chocolate.

Lavazza La Reserva de ¡Tierra! Brasile 100% coffee beans 1kg is a superior blend of two super-selected coffee types: Lambari, a natural Arabica that produces a smooth body and a mellow texture, and the Cereja Apasita, Arabica cherries harvested when only slightly over-ripe, enriching the cup with the aroma of honey, fresh biscuit and milk chocolate.

Medium
Roast

Origins:

The selected 100% Arabica origins from Brazil give this luxury blend an intense taste and a full body which combines harmoniously with the scents and delicacy of the Peruvian and Colombian coffees

Packaging:

6 x 1kg bag per case

Lavazza La Reserva de ¡Tierra! Colombia

Mild, Aromatic and Harmony.

The latest creation from Lavazza, a precious blend of 100% washed Arabica from Colombia. La Reserva de ¡Tierra! Colombia contains sensory profiles typical of the coffees coming from the different regions of Colombia: the fruity aromatics typical of the Western Cordillera and southern regions and the characteristic body of the Meta area.

The excellent mixing and design in the cup give life to a taste profile that can be appreciated both by lovers of 100% Arabica coffee and by the most eclectic ones in the continuous search for trendy coffee.

Gentle
Roast

Lavazza La Reserva de ¡Tierra! Brasile Blend

Intense with Hints of Chocolate and Dried Fruits.

A superior blend of espresso with an intense profile and a refined taste. The Lavazza La Reserva de Tierra Brasile Espresso is characterised by mellow hints which envelop the palate with a perfect balance of sweetness, dark cocoa, chocolate and hazelnuts.

Medium
Roast

Origins:

The Conillon Robusta is produced on a hillside south of Espírito Santo, at an altitude of 200 - 600 metres, characterised by a warm and humid climate. The beans are dried by indirect heating. Top quality Brazilian Arabica.

Composition:

70% - Arabica; 30% Washed Robusta

Packaging:

6 x 1kg bag per case

Lavazza La Reserva de ¡Tierra! Humeco Organic

Rigorous selection, blending knowledge and skilful roasting.

A premium blend of high-grade Arabica and Robusta from Central America, South America, and Africa, Humeco contains coffee from superior plantations practising organic farming.

It strikes a perfect balance: notes of dried fruits and raisins, a medium body, a delicate taste, and a persistent chocolate aftertaste. To maintain a consistent taste, the blend may include Indian coffee, depending on the annual harvest characteristics.

Gold Medal Winner: The Lavazza Humeco was awarded the gold medal at the 2020 International Coffee Tasting.

Humeco is also part of the La Reserva de ¡Tierra! collection, supporting Lavazza Foundation projects worldwide and promoting sustainability and quality sourcing.

Medium
Roast

Lavazza Dek Decaf Beans

Decaf Blend with Hints of Roasted Cereals and Barrique.

Lavazza 'Dek' Decaffeinated espresso beans is a well rounded, full-bodied blend. With a velvety crema, hazelnut & almond notes, you won't be able to tell the difference from caffeinated beans! The aromatic profile of these coffees is carefully preserved during the natural decaffeination process, which respects the true nature of the beans and maintains the strength and aromatic richness of the blend.

Medium
Roast

Origins:

A fine selection of the best Brazilian Arabica coffees skilfully blended with natural Robusta.

Packaging:

12 x 500g bag per case

Bufeo Fairtrade Roasted

Drum roasted slowly to produce a rich aroma and to accentuate the coffees characteristics.

These certified coffees are sustainably grown on certified Fairtrade farms. Fairtrade coffee growers are committed to protecting biodiversity, conserving resources for the good of the planet and future generations. Fairtrade ensures farmers are paid a fair price for their product and are committed to improving living conditions for their families and the development of their communities.

Create a fully bespoke and unique coffee offering tailored to suit your business. We have an experienced in-house team of designers ready to give your product a unique look. We can help piece together a strong and professional brand image, ensuring your product is ready for retail.

Origins:	A carefully selected blend of green coffee beans from Brazil and Vietnam.

Caffè Molinari Bio

Experience the finest in coffee with Caffè Molinari Espresso Bio, a premium blend crafted exclusively from 100% Arabica beans.

Each bean is meticulously handpicked to ensure only the highest quality makes it into this exquisite blend, designed to deliver a cup that is as smooth as it is balanced.

Caffè Molinari Espresso Bio offers a perfect harmony between body and acidity, creating a rich, yet delicate brew that engages the senses from the very first sip. The careful processing of the beans preserves the signature sweetness and aromatic profile of Arabica, revealing a complex bouquet of floral notes, enhanced by subtle hints of almond, chocolate, and spices.

Origins:	Central & South America
Packaging:	8 x 1kg bag per case

Caffè Molinari Extra Dolce

A refined 100% Arabica blend, meticulously crafted from the finest beans sourced across America.

This exquisite blend is soft and aromatic, with a delicate and balanced acidity that appeals to the most discerning palates. Ideal for connoisseurs, it unveils an intricate aromatic complexity, featuring rich notes of cacao, pronounced floral aromas intertwined with subtle hints of honey and beeswax, and a lingering finish that reveals nuances of fresh and dried fruits, especially almond. Every sip of this blend offers a harmonious and luxurious coffee experience.

Origins:	Central & South America Natural & Washed Arabica
Packaging:	8 x 1kg bag per case

Caffè Molinari Ricco

Caffè Molinari Ricco is a blend that captivates with its intriguing personality, offering a harmonious balance of body and moderate acidity.

This carefully crafted blend delivers the rich flavours of chocolate and spices, making it the perfect choice for those who appreciate a well-rounded coffee experience. The aroma is exceptionally well-proportioned, while the crema is persistent and beautifully striped, inviting you to savour every sip. Ideal for connoisseurs who seek a coffee that marries depth of flavour with a refined, lasting finish.

Origins:	Natural & Washed Arabica from Central & South America; Washed & Polished Robusta from India & Indonesia
Packaging:	8 x 1kg bag per case

Caffè Molinari Intenso

One of the boldest blends we offer, Intenso features a meticulous selection of Arabica and Robusta beans.

This rich, full-bodied blend delivers a spicy flavour with subtle fruity undertones. The perfect balance of contrasting Arabica and Robusta beans, skilfully blended with over four generations of expertise, results in a flavour that truly stands out. With a composition of 90% Arabica, Caffè Molinari Intenso is ideal for those seeking the authentic taste of espresso with a robust, traditional Italian coffee experience.

Origins:	Central & South America
Packaging:	8 x 1kg bag per case

Caffè Molinari Tradizione

Indulge in the distinct and sophisticated flavour profile of Caffè Molinari Espresso Tradizione.

This expertly crafted blend reveals rich notes of cacao, enhanced by the subtle fragrance of tea and the warm, inviting aroma of toasted bread. The medium roast achieves a perfect balance, offering a smooth yet full-bodied experience that delights the palate with every sip. Ideal for coffee connoisseurs, this blend marries the velvety richness of Arabica beans with the bold, creamy texture of premium Robusta, delivering a truly exceptional coffee experience.

Origins:	Americas, India and central Africa
Packaging:	8 x 1kg bag per case

Caffè Molinari Miscela Maestro

Sweet and Balanced.

Maestro Blend is a special roast of unique varieties of Arabica and Robusta coffee beans. These beans are carefully selected from farms located in high-altitude regions around the world where the best grades of coffee are grown.

Each type of coffee bean is roasted with great care to bring out each unique flavour. This coffee smells wonderful, tastes sweet and balanced, and leaves a long-lasting impression.

Carefully packed in real hessian 1kg bags that endorse a true artesian authentic quality coffee from Caffè Molinari.

Origins:	Americas, India and central Africa
Packaging:	8 x 1kg bag per case

CARIMALI

la marzocco

Carimali Bubble

Bubble is the new Carimali clever model, ideal for those coffee professionals who are looking for the best solution to achieve high quality, excellent performance with valued features.

It is identified by round-shaped sides and groups, that makes it a unique, stand out modern and attractive design. Available with high-raised and low groups, the new machine has been developed with high quality features. And it is the perfect machine for medium to high volume coffee shops, restaurants and cafeteria.

KEY FEATURES

- User-friendly display
- Programmable hot water doses
- Pressure gauge for steam boiler and pump
- Programming of pre-infusion for all drink selections
- Temperature probe for a constant control of steam boiler pressure

**Available in
1, 2 and 3 Group
configurations**

(2 Group Pictured)

CARIMALI

Carimali Nimble

Quick and affordable coffee.

KEY FEATURES

- Ideal for mid-size coffee shops, restaurants, kiosks
- Quality and customization at very competitive price
- Available in black or white
- Boiler - High stability thanks to heat exchanger with thermo-siphonic circulation
- LED lights - Good illumination for the working area
- LCD display - Easy set and intuitive parameter control

CARIMALI

La Marzocco Linea Classic S

Since its introduction, the Linea Classic has continuously been improved and updated to ensure it continues to deliver unrivalled value.

Built to embody the spirit of three words, reserved, reliable, and consistent, the Linea Classic S can be trusted to be a dependable partner in any coffee program. New features provide baristas an easier coffee making experience, while also increasing the reliability of a machine which has already set the standard in the industry. Timers allow baristas to track the brew time of espresso. Dual PID provide consistent temperature in the separate steam and coffee boilers.

KEY FEATURES

- Dual boiler system - Separate boilers optimize espresso brewing and steam production
- Insulated Boilers - Reduce energy consumption while contributing to temperature stability
- Dual PID (coffee and steam) - Allows you to electronically control coffee and steam boiler temperature
- 3-button interface - Buttons of the left group (AV) or on the electronics board (EE) can be used to program the machine
- Programmable Doses (AV only) - Auto-volumetrics ensure repeatability and consistency in high-volume settings
- Saturated Groups - Ensure unsurpassed thermal stability, shot after shot
- Shot Timer (AV only) - Placed on top of the control button, digital shot timer monitors the extraction time
- Pro App Compatible - Electronic board that allows connectivity with the La Marzocco Pro App
- Water sensor - Measures the conductivity and hardness of water as it enters the machine

la marzocco

La Marzocco GB5

La Marzocco introduced the GB5 machine model in 2005. It is the ideal espresso machine for the most elegant and classic cafés.

Equipped with a CPU board and designed for superior temperature control, the GB5 combines gracious lines and harmonious curves with powerful technological advancements, in line with classic La Marzocco design and spirit.

The machine is an understated companion to any coffee bar. Its unmatched temperature stability provides steady brew water and steam even at the peak of the morning rush.

KEY FEATURES

- Saturated Groups - ensure unsurpassed thermal stability, shot after shot
- Dual Boiler System - separate boilers optimize espresso brewing and steam production
- Dual PID (coffee and steam) - allows you to electronically control coffee and steam boiler temperature
- Insulated Boilers - reduce energy consumption while contributing to temperature stability
- Ruby Flow Restrictors - synthetic ruby flow restrictors resist scale formation and erosion
- Pre-heating System - prior to entering into the coffee boiler, water is pre-heated - thus increasing productivity
- Stainless Steel Portafilters & Precision Baskets - for improved cup quality and consistency
- Digital Display - temperature display, shot timers and intuitive programming simplifies the adjustment of machine parameters
- Hot Water Economizer - fine-tune the temperature of the hot water spout
- Tall Cups - allows you to use the machine with tall, to-go cups (+2.5cm /1in. in height)
- Auto Back-flush Program - automatic cleaning program

La Marzocco KB90

The KB90 is the ultimate evolution of the Linea PB form. Designed specifically to increase speed of service in the highest volume cafés while easier for the barista thanks to an improved workflow.

La Marzocco has redesigned the portafilter system to improve workflow efficiency and to reduce the wrist strain of the user. Efficiency can also be increased thanks to Steam Flush: after each extraction, a burst of steam from the grouphead is followed by a flush of hot water, keeping the machine clean even in the busiest rush hours. This innovative function minimizes off flavoured buildup, and increases the time between having to clean the group. The KB90 allows for a new level of expression in machine design, the panels have been engineered so that virtually infinite customization combinations can be created.

KEY FEATURES

- Dual boiler system - Separate boilers optimize espresso brewing and steam production
- Independent Saturated Boilers - Separate saturated boilers for each group head allow barista to optimize temperature for individual coffees, ensuring thermal stability
- Dual PID (coffee and steam) - Allows you to electronically control coffee and steam boiler temperature
- Hot Water Economizer - Enables you to fine-tune the tap water temperature for tea
- Integrated Scales - ABR only - Precision scales built in the drip tray with the drip
- Prediction technology provide a new level of consistency
- Insulated Boilers - Reduce energy consumption while contributing to temperature stability
- Straight In Portafilter - Simplifies the motions to engage the portafilter and reduces the strain by 12 times
- Steam Flush - Keeps the group clean with an automatic burst of steam and a flush of hot water between extractions
- Pro Touch Steam Wands - High performing steam wands that are cool to the touch
- USB - Making it possible to update the firmware
- Easy Rebuild Steam Valve - Engineered so the valve can be serviced directly from the front of the machine without needed to be removed
- Digital Display - Intuitive programming makes it easy to adjust machine parameters

la marzocco

La Marzocco Linea Mini

The Linea Mini is inspired by the Linea Classic and features dual boilers and an integrated brew group that allows the machine to achieve the temperature stability and energy efficiency of a saturated brew group while taking up less space.

The Linea Mini is handcrafted using the same components as our commercial machines, ensuring the same level of durability as the Linea Classic. The Linea Mini has all the features needed to make the perfect espresso at home possible, including PID and a temperature adjustment wheel.

Available in Stainless Steel, Black, Blue, Red, White and Yellow.

KEY FEATURES

- Dual Boiler System - separate boilers optimize espresso brewing and steam production
- Integrated Brew Group - combined boiler and brew group achieve thermal stability in a reduced footprint
- Thermal Stability System - as water passes through each element, temperature is further stabilized
- Hot Water Spout - convenient spout for tea and rinsing portafilters between shots
- PID Control - stepped temperature wheel allows for user adjustment
- Internal Pump - self-contained pump without compromising performance

la marzocco

La Marzocco Linea PB

Linea PB has a more sharpened design with simplified lines comparing with the Linea Classic. The machine's lower profile and increased work area make it practical, without abandoning La Marzocco's distinctive and renown features..

Besides the stylistic updates, the Linea PB features improved component longevity and the exclusive, user-friendly interface software that gives the barista control over boiler temperatures, brewing volume, hot water tap dose, and auto-backflush, to ensure a new level of performance and reliability is achieved.

This conical valve system assures progressive control of water flow and pressure via an internal orifice, before applying full pressure. The new conical paddle valve controls the pre-infusion while the volumetric pump is working at full pressure, therefore the barista may also perform a pre-infusion on one group while the other is extracting coffee. This dynamic system allows the barista to reduce channeling for a more balanced extraction.

KEY FEATURES

- Saturated Groups - ensure unsurpassed thermal stability, shot after shot
- Dual Boiler System - separate boilers optimize espresso brewing and steam production
- Dual PID (coffee and steam) - allows you to electronically control coffee and steam boiler temperature
- Insulated Boilers - reduce energy consumption while contributing to temperature stability
- Eco Mode - can be programmed to enter stand-by mode, improving energy efficiency
- USB: making it possible to update firmware
- Stainless Steel Portafilters & Precision Baskets - for improved cup quality and consistency
- Digital Display - temperature display, shot timers, flow pulse counter and intuitive programming simplifies the adjustment of machine parameters
- Tall Cups - allows you to use the machine with tall, to-go cups (+2.5cm /1in. in height)
- Auto Back-flush Program - automatic cleaning program

- Engage your customers while dispensing their beverages with our large, innovative coffee machine screens
- We can install your company's screensaver, branding, and messages to your screen remotely

Lavazza Blue Capsule Machines

LAVAZZA
TORINO, ITALIA, 1895

Lavazza Blue LB4724

Lavazza recently revamped the design of this popular capsule machine. With soft and modern lines, the LB4724 still has the customary reliability to satisfy all professional requirements, and is suitable for all cup sizes. It exclusively uses Lavazza BLUE pods, to produce the consistent drink quality with minimal waste. Less barista training is required as the machine is very easy to operate.

It is perfect for large food service environments, and can provide the perfect drink with the theatre of a barista machine without the need to be a trained barista.

Designed with the aid of Michelin star chefs, this machine uses the range of BLUE capsules so that you can run multiple blends concurrently without the need for multiple grinders.

Versatile, robust and modern, the reliable LB4724 – 2 group Wega commercial espresso machine satisfies every professional need.

KEY FEATURES

- Two group capsule-based traditional espresso machine
- Professionally prepared espresso without the need to grind and tamp
- Two automatic pre-set milk frothers that produce perfect textured milk to the correct temperature (with easy milk version)
- Filter holder for single and double coffee dispenser
- Capacitive and programmable keyboard
- Adjustable cup support for different cup sizes
- Capsules guarantee consistency of taste and freshness
- Easy operation with free training on installation
- Heated and wide upper cup rack
- Hot water dispenser
- Pressure control of the boiler

LAVAZZA
TORINO, ITALIA, 1895

Lavazza Blue LB4723

The Lavazza Blue LB4723 single group espresso machine uses Lavazza BLUE capsules, by placing the BLUE capsules directly into the group handle. It is convenient to use, and reduces the need for full barista training because it is so simple to operate..

With the latest EASY MILK FOAM technology, you can make perfectly textured milk like a pro. This machine also comes with programmable multi-offer selection function, so you can make espresso, espresso macchiato, cappuccino, hot milk and hot water all at your fingertips. You can make two espressos at one time by simply placing a double shot espresso capsules into the group handle.

It is very robust and reliable, with guaranteed consistency in crema and taste, it fits well with any professional need. It is perfect for medium to large sized restaurants, hotels and cafés.

KEY FEATURES

- Single group capsule-based traditional espresso machine
- Professionally prepared espresso without the need to grind and tamp
- Two automatic pre-set milk frothers that produce perfect textured milk to the correct temperature (with easy milk version)
- Filter holder for single and double coffee dispenser

CARIMALI

Slingshot Kilo Automatic Tamper

Kilo' is the fastest auto-tamper in the market! The automatic coffee Tamper designed for the busy coffee shop where speed, efficiency, and consistency are required.

The downward tamping force ranges from a light 3 Kg to a heavy 30 Kg, and users can program the machine to tamp a single coffee bed up to three times, each at a different pressure. Baristas may choose different numbers and pressures of compressions for different origins prepared in different doses and grind settings.

Delivering a perfect level tamp for every shot.

KEY FEATURES

- Precision Scale - Kilo' Autotamper features a precision load cell scale, which controls the tamping pressure applied, ranging from as low as 3kg "soft tamp" up to 30kg.
- Variable Tamping Profile - Kilo' features a patented variable tamping profile.
- The barista can set up to three different profiles. Each profile can be set to tamp from 1 to 3 times with a pressure range from 3 to 30kg.
- Removable Tamping Disk - The Tamping Disk is attached to the auto-tamper with a magnetic locking system. The Barista can now easily remove the Tamping Disk during cleaning operations.
- Tamping & Polishing - Kilo' tamps the coffee puck while gently polishing the coffee surface with a 35 degree turning motion. Our unique tamping movement eliminates statics in the Tamping Disk.
- Cleaning Function - The Cleaning function lowers the Tamping Disk giving the user an easy access for cleaning purpose.
- Tamping Counter - Kilo' records the total coffee tamps for each different tamping profiles. A great feature for monitoring daily coffee sales.
- Concave Tamping Disk - Kilo's unique tamping disk concave design improves coffee distribution, while maintaining a clean coffee bed surface.
- Super-Fast Tamping - Kilo' is the fastest Automatic Tamper in the market, full stop! Tamping time ranges from as low as 0.8 sec for a single tamp to a max of 1.4 sec for a triple tamp. Our unique twin-disk transmission design combined with the onboard weighing system guarantees super-fast tamping operation at all times.

Slingshot S75 Grinder

The Slingshot S75 with flat burrs, 75 mm, is an innovative espresso coffee grinder. It is easy to use, fast, and able to provide a constant delivery.

A Coffee Grinder that can be used by anyone, from the expert barista to the novice.

A grinder simple to use that continuously delivers the perfect coffee dosage without unnecessary coffee waste. It contains the advantages of an on-demand and those of a volumetric, allowing Baristas to choose the best mode to their needs.

KEY FEATURES

- Self Dosing Grinder - All Slingshot grinders feature a volumetric self-dosing chamber which is always on standby to provide the professional barista with their next shot of espresso. Single or double, the dosage will still be correct with zero coffee wasted.
- Zero Waste Delivery System - No more lost revenue due to coffee waste Slingshot features a sealed distribution chamber that accurately delivers the ground coffee to the portafilter with no loss of coffee. No more shaky hand to avoid ground coffee spill from the portafilter.
- Micrometric Dosage Adjustment - volumetric dosage system that allows the Barista to set different coffee dosages for the single and double portafilter.
- Micrometric Grinding Adjustment - Our adjustable micrometric grinding system is a “step-less” design that allows precise control over the coffee grind. Grind setting is made by rotating a tactile control dial integrated with a digital position counter
- Real-Time Coffee Maturation - Easily monitor the coffee maturation period thanks to the intuitive LED display which records lapse time between grinding giving insight to the Barista of the coffee resting time.
- Universal Porta-Filter - Slingshot can accommodate any type and brand of portafilter thanks to its patented spring-loaded support system. The height of the portafilter can vary from 36 to 48 mm, 54mm or 57-58 mm basket diameter.
- Burrs Life Monitoring - Slingshot will register the total grinding time to allow the Barista to monitor when the burrs need to be replaced. A warning icon will advise when to schedule the burrs replacement.
- Memory Position Burrs - The coffee grinder chamber is accessible by removing the top burr sleeve. It will save time for the maintenance-cleaning, and the grinder will always retain its last grinder setting.
- Automatic Portafilter Recognition - Slingshot automatically detects the difference between single and double-dose portafilters, delivering the exact dosage of coffee every time whilst improving speed and efficiency.

Eureka Olympus 75E Grinder

The Eureka Olympus 75E hi-speed Grinder is a medium to high output coffee grinder, capable of meeting the demands of most coffee shops. This new upgraded high speed version uses the same motor from its bigger brother - the Mythos, and it is also using the Mythos's state-of-the-art 75 millimetre flat burrs in high-strength titanium blade, which can pulverize beans at speeds impressive even against grinders double its price.

This on-demand grinder has stepless micrometrical grinding adjustment, which makes it extremely easy to use. Electronic control of doses: Single and double dose, with independent adjustment, or continuous grinding. This grinder allows you to precisely select the grind size that you want, and delivers extremely consistent results. The machine body is made from steel & aluminium, very similar to that of a Mazzer style production.

The Eureka Olympus 75E is a serious commercial grinder. It has an excellent build quality, can deliver the highest standard of grind consistency and performance, and it presents fantastic value for money.

KEY FEATURES

- Straightforward operation suited for the busiest cafe environments
- Volumetric Programming - Dial-in your perfect single or double dose for extra consistency
- Stepless - Infinite grind settings mean you can find just-right consistency
- Anti-static coating for easy cleanup
- Adjustable portafilter holder
- A sliding door closes off the hopper for easy removal and burr maintenance
- Bottom Burr Adjust - Make it easy to get into the burrs for cleaning while still remaining close to your last grind setting

Eureka Helios 75

Utilising its advanced “High Speed” Grind Dispersion system, this grinder not only expedites dispensing times but also upholds the exceptional quality of the coffee in your cup.

Featuring hardened steel burrs with a 75 mm diameter in a flat design, the Eureka Helios 75 guarantees durability and precision in grinding. The user-friendly design includes a Touch display, dose counter, adjustable chute, and a spotlight on the filter holder, making it effortlessly convenient to operate.

For those seeking top-notch, consistent, and swift coffee grinding, the Eureka Helios 75 coffee grinder stands out as an excellent choice.

KEY FEATURES

- Three different grinding activation modes: only microswitch, only touch screen, both microswitch and touch screen
- Possibility to activate or deactivate the dose Pre-Selection
- Touch screen (3 doses + continuous)
- High speed
- Bean hopper security system
- Adjustable and removable outlet chute

Eureka Helios 80 Grinder

The NEW Helios from Eureka is an espresso grinder features a commemorative "Eureka 1920" badge, while the machine itself is geared towards speed and convenience in espresso production. With faster maintenance and a new multifunctional touch display this grinder will complement any Cafe, Restaurant, Hotel and more.

"High Speed" Grind Dispersion Stepless Micrometric Regulation System (patented by Eureka) "High Speed" Maintenance ACE System All-Purpose Adjustable "Hands-Free" Fork Touch screen (3 doses + continuous) Adjustable and removable outlet chute Bean hopper security system.
